PLACES

Cover p. 37

Time: 5 mins

Check pupils understand what the different places shown are.

Ask them which places they go to daily, on a regular basis, seldom or never.

Ask pupils how they get there. On foot, by car, by bus?

Pupils listen to the noises and match to places.

KEY 1. Gym, 2. Beach, 3. School, 4. Work, 5. Mountains, 6. Home.

LESSON 1

THE PLACE WE LIVE IN

Aims of the Lesson

- To make pupils talk about the place where they live, about their parents' workplace and ways of getting to work / school
- To revise vocabulary related to buildings, services and methods of transport
- To teach how to express opinion and make suggestions
- To make pupils aware of the problems of living in a city and make them express their opinions on related issues

A. LEAD-IN

PB page: 38 / Time: 3 mins

- Allow pupils a few minutes to look at the questions individually. Then elicit responses and have class discussion.

B. READING & WRITING

PB page: 38 / Time: 5-7 mins / TB Introduction p. 9, 10

→ **Cross-curricular link: GEOGRAPHY.**

Pre-Reading

- Ask pupils to identify what the situation here is and who the participants of this exchange are. The 3 Net friends are talking about the cities where they live and about the way their parents go to work.
- Elicit information about the images: e.g. "What is it that they all have in common?", They all live in cities. They live in different cities but with similar problems. In cities and towns they can get to work by car,

bus, metro, on foot. In villages they may get to work on foot.

- Ask the pupils to read the instructions and check they have understood them. Check they have understood the chart on the following page.

While-Reading

- Pupils read the bubbles & complete the chart.
- Allow them to check information in pairs.

Post-Reading

Ask the pupils if they can identify problems in the ways the 3 children's parents choose to travel to work. "What are the problems with the way the 3 parents go to work? Kostas's mother can't find parking. Nadine's parents may have a long and tiring bus ride. Mark's father is the lucky one – he walks to work."

"What other way can Kostas's mother get to work? She can take the bus or the metro. The metro is fast and efficient. The bus may be slow and hot in the summer months."

C. WRITING

PB page: 39 / Time: 7-10 mins / TB Introduction p. 10

- In pairs, pupils prepare a small paragraph like the ones in Act. B (p. 38). They first discuss orally, take notes and then help each other with the writing.
- After the main writing task has been completed, in pairs they can make a statistical chart like the model given below and compare their results with those of the other classmates.
- They could also compare the way they get to school and go to their evening classes – e.g. music lessons, sports, guitar/ piano lessons, foreign language lessons.

The aim here is to revise vocabulary from last year's book related to shops and services.

Pre-Listening

- Remind pupils of buildings already met in last year's English book. Brainstorm and ask them to name shops and services they have in their area. Help them with vocabulary (e.g. town hall, hotel, office building, theatre, playground, sports centre, toy store, post office, shopping centre, etc).
- You could have some flashcards ready for this purpose made of drawings or magazine pictures. They could show objects or things one could find or do in such places, e.g. photos of toys for the toy shop, pictures of clothes or shoes for the shopping centre, groceries for the supermarket, etc.

While-Listening

- Ask pupils to identify the shops in the photos in their books, as well as the three persons.
- Play the tapescript once.
- Encourage pupils to work in pairs and compare findings.
- Play the tapescript a second time and have them check their answers.

TAPESCRIPT – Kostas speaking:

Mark and I will buy the ham, tomatoes and the fizzy drinks and then get the bus tickets from the newsstand. I don't think we'll take the metro. We'll get plenty of fizzy drinks as it looks like it's going to be a hot day. Mark and I will also pick up the ball, Frisbee from home... and we won't forget the cakes from the cake shop! How about we all meet up here in about 40 minutes and then we'll set off?"

KEY Mark & Kostas - newsstand, home, supermarket, cake shop Ioanna - bakery, house

SOME INFORMATION ON KASTORIA

Kastoria is one of the most important cities of West Macedonia, with a long history which cannot fade with the passing of time.

Proof of this, are the rich prehistorical and archaeological finds (signs of habitations near the lake at Dispilio, Armenohori etc.). It was named after the mythological Macedonian hero Kastor, Jupiter's son.

Geographically the area has connections with the ancient Macedonian state of 'Orestias' where the ancient Orestes used to live, having Argos Orestikon, as their capital.

From this area the Macedonian kings started to join the rest of the small states, which constituted the big Macedonian state having as its capital Eges (Vergina) and later Pella.

Initially, Philippos and later Alexander the Great joined this state with the rest of the Greeks.

In Roman period Kastoria shared the same destiny as the rest of Macedonian, however, it gained glory in the Byzantine years.

This is the city of the Byzantine 'Titouarios', the city of the Byzantine architecture.

It developed and flourished to become an excellent religious, commercial, artistic and military centre.

According to the famous Belgian specialist in Byzantine art Gregoire: the city can write the History of the Byzantine art itself.

The castles which were built by Justinianos and Vassilios Voulgaroctonos are examples of the interest which the Byzantine Emperors

showed because of Kastoria's strategic position.

In the past Byzantine years, Kastoria had many benefactors and teachers of Greek Culture, who were really outstanding.

It took an active part in the preparations for the Revolution of 1821 where it participated with a special group of fighters. In the 19th century it took part in Revolutionary movements in order to defeat the Turkish tyranny.

Kastoria played an important role in the Macedonian fight against the Turks and Bulgarians. In 1912, it was joined with freed Greece. The 75 Byzantine and others churches are samples of the higher civilization and sociability of the city.

One can see the architectural style of the

'Basilica' in the churches of Saint Stefanos, Saints Anargyri, Saints Taxiarches, and of the 'Monoclates' in Saint Nicola Kasnitzi church, the Holy Virgin of Mariotissa Monastery and the Holy Virgin (Panagia) Koumbelidiki. All of them are perfectly built with an excellent structure using local materials, in a rich alternation of shapes and colours which emerge from the same material and the good taste of the maker. The outer walls are varied with perfect ceramics. The inner wall paintings have great expressive strength, expressing the metaphysics of Christianity and the Greek-Christian spirit.

This text (extract) is cited from the Municipality of Kastoria tourist pamphlet.
